Experience

Teleperformance Portugal

October 2017 - July 2025

Customer Service / Fair Play Agent

Lisbon, Portugal

https://jobs.teleperformance.pt/

Fair Play Agent, Content Moderation & Trust & Safety , and Customer Service in Gaming Project .

Seven years of progressive experience providing technical support for iOS/Android devices, ensuring platform integrity through content moderation and quality assurance, and analysing user transactions for compliance and risk mitigation across major app stores.

Bedrock Streaming

July 2025- Oct 2025

Internship - Frontend Developer

Lisbon, Portugal

https://bedrockstreaming.com/

Gained hands-on experience in modern web development, utilising React, Node.js, TypeScript (TS), and JavaScript (JS) across active codebases.

Actively collaborated with the development team using **Scrum methodology** and managed codebase changes via **Github** across multiple repositories and successfully executed two key **Proofs of Concept (PoCs)** that expanded technical knowledge in critical areas:

- (Video Manipulation & Eco-Experience:** Developed a feature (a button) to manipulate video quality, creating an "Eco" user experience. This project involved deep exposure to **Ad Engines, Video Engines, and the React technical stack** (including Redux and component architecture), alongside writing comprehensive **Unit Tests** and **End-to-End (E2E) Tests**.
- Testing Framework Migration:** Led the research and migration from **Cypress to Playwright** with mirage JS, analysing the pros and cons of both frameworks. Acquired proficiency in implementing a new testing library and utilised the **Gherkin language with Cucumber** for behavior-driven development.

Education

Unidad Educativa Colegio Santa Maria

2011-2016

SCIENCE HIGH SCHOOL

CEAC Portugal

2020 - 2022

Professional Course - Full Stack Web Programmer
